1-Day National Seminar on

Geopolymer Concrete Applications: Challenges and Opportunities

(Smart Techniques and Solutions for Ecofriendly Sustainable Constructions)

On 18th February 2020, Tuesday

Venue: Premachandra Sagar Auditorium, DSCE, Kumaraswamy layout Bengaluru – 560 078

INTRODUCTION: GEOPOLYMER CONCRETE

In this drastically developing world it becomes very important for us as civil engineers to focus both on the global development and also its impact on the environment. This kind of approach leads to many innovations and researches which helps in conserving the environment without compromising on the developments. One such innovative technology is the geopolymer concrete.

Geopolymer concrete is an eco-friendly technology which makes use of the waste by products (fly ash, ground granulated blast furnace slag, etc.) from the various other industries in the preparation of the concrete instead of the ordinary Portland cement (OPC). The evidences from various researches show that using of OPC in the preparation of concrete leads to almost 5-8% of the manmade global carbon-di-oxide emissions. By using materials like the fly ash and GGBS for the preparation of the concrete almost reduces the carbon-di-oxide emission by 90% when compared to the usage of OPC in concrete.

In line with this continuing endeavour, ICI-BENC is organising a 1-Day Seminar entitled “**Geopolymer Concrete Applications: Challenges and Opportunities**” on **18th February 2020, Tuesday, at Premachandra Sagar Auditorium, Dayananda Sagar College of Engineering, Bengaluru**. Get to know from the experts and hands-on professionals will speak on vital aspects.

Please register early to book your seats in advance, as registration is limited. Limited Sponsorship slots are also available. Please get in touch with ICI-Bengaluru Centre office. For more information and for registration (contact details mentioned overleaf).

We look forward to meet you at this Seminar for a wonderful interaction of professionals, knowledge-updation and skill-enhancement.
